THREE REPUBLICANS
The three Republican candidates are R. B. Howell of Omaha, Congressman A. W. Jeffers of Omaha, and Atty.-Gen. Clarence A. Davis. Jeffers is the out-and-out standard-bearer. Howell is the "Beveridge" type. Davis is the young man between the two extremes.

France Has No Flappers, Says Eleanor Glyn
PARIS, May 28.—Mrs. Eleanor Glyn, who is now in Paris after a long professional sojourn in America, does not think there are any "flappers" to be found among French girls.

DEPARTMENT FIGHTS FIRE IN WASH TUB
[LOCAL CORRESPONDENCE]
SOUTH PASADENA, May 28.—A burning wash tub caused a temporary panic in the vicinity of Mrs. Eva Arnold at 1508 Magnolia, but hot boiling water, intended for use on the building, intended fire department, making a quick run to the property, black smoke from which belched wide and high, found their style considerably cramped when it was found that the blaze was entirely confined to a common or garden laundry receptacle. The tub, however, created black and smoke far beyond the apparent capacities of its limited size.

Krassin in Conference with Germans
[BY CABLE AND ASSOCIATED PRESS]
B E R L I N, May 28.—Leonid Krassin, the Soviet Minister of foreign trade and commerce who is here with his secretary, immediately on his arrival began conferences with German officials. A high German official informed the Associated Press that the threatened cabinet crisis caused by the differences between Chancellor Wirth and Finance Minister Hermann Müller over the latter's attitude on financial matters during his recent visit to Paris has been averted.

AMERICAN MARINES BACK FROM CHINA
FORCE WAS NOT NEEDED TO PROTECT AMERICANS INTERESTS
DOUGLAS RALLIES FROM DEPRESSION
[EXCLUSIVE DISPATCH]
DOUGLAS (Ariz.) May 28.—Business men here state that the postwar depression almost entirely has been lifted from the city. There has been a remarkable betterment in collections, with a clearing up of accounts that had been run by workmen whose pay stopped with the closing of the smelters. Buying now is confined mainly to necessities and no signs are visible of the former extravagance in wage-earners' families.

320 SULTANS
There is a national organization in Asia Minor which aims to make Turkey an inviolable nation—out of the hands of all European control. This organization is composed of three hundred and twenty Turkish soldiers, known as the "Three Hundred and Twenty Little Sultans," by Laurence Shaw Moore in the June

2 DAYS LEFT

You have only until Wednesday, May 31, Midnight, to make or increase your subscription to Palos Verdes Estates CONVERTIBLE NOTES

In the course, to date, of the underwriting of the development of Palos Verdes Estates, the key-stone seashore area of Greater Los Angeles, thousands of subscriptions have been received.

These subscriptions range in amounts from one hundred dollars to one hundred thousand dollars—on exactly the same basis of opportunity.

Their combined volume is such that the Management finds it necessary to withdraw Palos Verdes Estates CONVERTIBLE Notes from public subscription at Midnight, May 31, and only TWO DAYS therefore remain in which you can make or increase your subscription to these Notes. After Midnight of Wednesday, May 31, you cannot subscribe to Palos Verdes Estates Convertible Notes at any price.

This is a wonderful opportunity to buy a business location or your permanent homesite, and as much more land as you can afford, in a residential location unsurpassed in the world with a Unit Plan of development as a city incomparable.

It is an opportunity equally great to invest on a basis which should be the foundation of a substantial for-

tune and an independent income. You may never have to pay in more than a small portion of your subscription before realizing a large profit on the entire amount subscribed.

It is the only underwriting of this kind ever undertaken with a great Trust Company in full control as YOUR Trustee with absolute powers.

This great area can hope to accommodate only a moderate fraction of the thousands of new residents arriving each month in Los Angeles and rapidly increasing in volume. Only two more days remain in which to subscribe for Palos Verdes Estates Convertible Notes by which you can buy the improved frontage you select AT ACTUAL COST.

Subscriptions received, or postmarked, or reservations made by telegraph and time stamped as filed before Midnight May 31, will be acceptable. The General Sales office, 929 South Broadway, will be open tomorrow, Memorial Day, and you may enter your subscription there, or telephone Pico 3763 and our representative will call on you.

Only 10% of the amount of your subscription need be paid down.

Radio SpeakerAppropriate Songs Sent
from "Times"Lecture on Russia Will Ride
Ether Waves Today

The Times-KHJ—on the air today, 1:45 p.m. Mitti Schwartz will deliver an address on "Russia of Today and Tomorrow." Their Government and Their People. An Ampico piano number will be presented through the courtesy of the Fitzgerald Music Company, entitled "Babe in Toyland," by Victor Herbert.

Concert at 7:15 to 8 p.m. Matilda Codding, accompanied by Georgiella Lay, pianist, will sing "O Sole Mio," by E. di Capua, "To You," by Rodolphe, and "How Can I Leave Thee," folk song. Miss Grace Grubbe will sing "Shadows Song," aria from "Dinorah," by Weber; "California," by Ellen Beach, and "Winds in the South," by Scott. Miss Georgiella Lay will accompany the singers on the piano and also play two solos: "Venice and Naples," Tarantella and Canzonetta, List and "Menuet," by Beethoven.

Bedtime story at 7:30 p.m.

What is reckoned the greatest Sunday audience of worshippers in Western America yesterday tuned instruments with The Times radio-phones from 19 to 18:45 a.m. when Rev. M. Howard Fagan, pastor of the Wilshire Boulevard Christian Church delivered his sermon on the subject, "The Gospel for the Doubter."

Singing from the original scroll the beautiful sacred composition,

Times RADIO DEPARTMENT

LESSON 54

By G. C. Farmer

It is not necessary to learn the "International Morse code" in order to hear radiophone conversation, for a knowledge of the code will increase one's enjoyment of listening to a great extent. This is partly because there are a great many more code signals transmitted every day than there are radiotelephone messages, and partly because of the variety of codes used by radio telegraph stations.

On 200 meters there is a constant babble of rotary sparks, and C. W. transmitters at amateur chatters.

On 800 meters there are hundreds of ship stations and a dozen or so shore stations to be heard in Southern California. At night we may hear the coastal stations working with boats thousands of miles at sea—A. Merica, British and Japanese—handling traffic and receiving position reports. An occasional 500 may also be heard, telling of a ship on fire, on the rocks, or in danger of sinking far out to sea.

Weather reports on this wavelength are broadcasted from various government stations along the Coast. By taking their sum total, a fairly accurate prophecy of the local weather can be made two or three days in advance.

Twenty-four hundred meters is another wavelength on which ship

and shore stations operate. This is the wave used by arc equipped vessels. It is interesting to listen to such ships 4000, 5000 and even 6000 miles. The magic distance seems to lend attraction to the 2400-meter wave. Arc equipped ships can be heard much farther than ships on which spark sets are installed.

On 2400 meters, government time signals are sent by their various spark stations along the Pacific Coast. These time signals are transmitted by the station at San Diego (NPD), the station at Mare Island (NPD), the station at Eureka (NPD) and the station at North Head, Wash. (NPD). They are all operated from the naval observatory at Mare Island, being sent twice daily, from 11:55 a.m. to noon and from 9:15 to 10 p.m.

The pendulum on the clock at the observatory is fitted with contacts which close the circuit on the second and a tick to the next. Beginning with the fifty-fifth minute each second is ticked until the twenty-fourth, which is not indicated. Then the seconds until the fifty-fifth are transmitted. The last five seconds of the minute are not sent. The daily broadcast is carried out for five minutes, with the exception of the last minute, wherein the last ten seconds are sent in advance. The second in length indicates the exact time of noon or 10 p.m.

MUSKET FLAYS
BUREAU AUDIT

(Continued from First Page)

the State is to be asked to pass on in November next, if the report showed the bureau to have made a loss instead of a profit. No such a result would have jeopardized the scheme.

Price, Waterhouse & Co. is an old English firm, having headquarters in London. Of course, both the original Mr. Price and Mr. Waterhouse have been dead for many years, but the name still carries weight, although any legal examination under their name must be limited in value to the ability of the employees of the firm, who signed the report.

The report under discussion would be a joke to me were it not for the fact that the poor, patient taxpayer public is apt to be deceived by the propaganda of the Bureau of Power and Light based upon this report.

Whoever wrote this report had evidently not read "Accounting Practice and Procedure" by Arthur L. Dickinson—page 167—which disapproves of the annuity or sinking fund method of depreciation used by the employees of this firm and Mr. Dickinson is the head of Price Waterhouse & Co.

A STRANGE STATEMENT

Mr. Mulholland of the water bureau and City Manager Keener of Pasadena use the method of depreciation recommended by Price Waterhouse & Co.'s report consists of a letter of transmittal and comments, and three exhibits being (1) consolidated balance sheet, (2) consolidated income account and (3) a strange statement, the like of which has probably never been evolved, but thrice since the creation.

It is this weird third exhibit that appeals so strongly to the bureau. The Consolidated Balance Sheet consolidates the transactions of the bureau with those of the city proper and also with separate records of the 1914 bond fund kept by the bureau, the result being to cleverly reduce the liabilities of the bureau by \$2,212,341.44 advanced by the city from proceeds of taxation and nearly \$1,250,000 used by the bureau contrary to law and for purposes other than authorized by the voters from the 1914 bond fund.

PUBLIC MISLED

The Consolidated Income Account consolidates the transactions of the bureau with those of the city proper and also with separate records of the 1914 bond fund kept by the bureau, the result being to cleverly reduce the liabilities of the bureau by \$2,212,341.44 advanced by the city from proceeds of taxation and nearly \$1,250,000 used by the bureau contrary to law and for purposes other than authorized by the voters from the 1914 bond fund.

On March 30, 1920, E. F. Scattergood presented a similar one to the Board of Public Service Commissioners, which in turn was sent to the Los Angeles Chamber of Commerce.

On July 20, 1921, the same E. F. Scattergood presented a similar one to the Board of Public Service Commissioners, which in turn was sent to the City Council.

About Dec. 1, 1921, an unsigned and undated statement from the same E. F. Scattergood, addressed to the Municipal League and others, contained a similar exhibit.

At that Price, Waterhouse & Co. had a precedent for their remarkable exhibit.

Mr. Scattergood claimed many times before the 1910 and 1914 bond elections that at least \$500,000 would be realized yearly in excess earnings after paying bond interest, bond sinking fund, depreciation and operating and maintenance expense.

MEMORY IS POOR

This third exhibit seems to show that it would not be proper to provide from earnings for both depreciation and bond sinking fund and says:

"Consequently, any contention that the earnings must be sufficient to bear both charges and demands of the project, that portion constructed from proceeds of bond sinking fund, depreciation and operating and maintenance expense."

The writer of this quotation forgets that the profits of a privately owned utility are reflected in dividends, but the profits of a publicly owned utility are reflected in a care for the public fund.

Not only do all the utterances before the 1910 and 1914 bond elections show that the voters were promised that profits would provide for depreciation and bond sinking fund, but paragraph eight of Dr. Haydon's 1920 bond water power act, again promises the same thing, as follows:

"The Water and Power Board shall establish such rates for services as in its judgment will provide in addition to the expense of operation, maintenance, depreciation, insurance and reserve for losses, funds to pay the principal and interest on all bonds issued under this

GIRL FLYER TO
HERALD DANCEWill Distribute Handbills
from the Air Telling of
Veterans' Frolic

Determined that every person in Los Angeles shall know about the United Spanish War Veterans' benefit dance Thursday night, Miss Ruth Jeasimier, daughter of F. R. Jeasimier, 1230 Leigh-ton avenue, a member of Roosevelt Camp, will fly over the city tomorrow afternoon in an airplane and will scatter to the four winds 10,000 handbills advertising the dance. She will be accompanied by the flight by J. E. Lambert, proprietor of the California Dancing Academy, who has donated the use of the academy and his orchestra for the dance. Mr. Lambert is a Spanish-American War veteran.

article, as the same fall due, together with all sums which may be advanced from the general fund and interest thereon as herein provided."

Not only this, but the Bond Act of 1921 was amended in 1927 by postponing the period for the payment of the principal of municipal bonds for public utilities for a period not to exceed ten years for the express purpose of requiring the bureau to provide for the sinking fund payments out of profits and not out of taxes.

IMPROPERLY SHOWN

Nobody knows these things better than Mr. Scattergood. Price, Waterhouse & Co., on page seven of this report, say:

"We examined the authorities for all the larger construction projects and made substantial tests of the charges thereto, and found them to be in order. We would, however, call your attention to the large proportion of the general expenses for the years 1920 and 1921 charged to construction. While there may be substantial arguments for the treatment adopted, a review of the expenditures in question does not lead us to believe that such expenditures would have been materially less had no construction work been in progress. Consequently, we cannot consider the policy adopted as conservative or entirely sound."

The amount involved is in excess of \$150,000.

Let me say further, that of the amount handed over by the Edison Company to the bureau, since April 1, 1917, over \$400,000 was "deferred maintenance" and not profit and is improperly shown in profits.

Price Waterhouse & Co. leave the question of accountancy and enter the realm of economics to discuss the question of the propriety of charging anything at all to power and light for the 200 miles transmission of water.

Do they seriously contend that the Water Bureau would transmit the water without charge for the Edison Company or the Los Angeles Gas and Electric Company? If not, it is certainly proper to consider a reasonable charge for this service when comparing the operation of a publicly owned utility with a privately owned utility.

Since the Water Bureau is separate and distinct, both in management and in records, from the Power and Light Bureau and very properly so, it might be asked are not the water consumers of the city helping to pay the bills of the power and light consumers of the city by neglect to charge for this most important item of service amount which the Edison or the Los Angeles Gas and Electric Company would be expected to pay for the same service.

Some engineers have questioned the propriety of having the big reservoirs of the Aqueduct above the power plants and not below to conserve the water after it had passed through the power plants, and have even been so unkind as to suggest that because of this it might be necessary to vote more water bonds to construct reservoirs below the outlet of the power plants, which would not be necessary were it not for the power plants.

Don't forget that it is the same people who recently pleaded with the courts for confirmation of the sale of \$12,500,000 power bonds for \$2,000,000 less than the city actually obtained for them who have told the taxpayers that they operated from April 1, 1917, to June 30, 1921, at a profit. They did not. They operated at a loss.

The Bureau of Power and Light of Los Angeles, however, does not use any method of computing depreciation whatever, even the one used by the employees of Price, Waterhouse & Co., which calls for a deduction of \$511,798.

A full, fair, and disinterested investigation should be instituted by Federal, State, county or city authorities, and at once, especially since the city has doubled its investment of the purchase of the Edison Company's distributing system in Los Angeles. But both sides must be heard and not one only.

I am in favor of municipal ownership, but as a citizen and as a member of the City Council and an elected trustee of the people, I shall continue to insist that the Bureau of Power and Light tell the truth, the whole truth and nothing but the truth as to its operations. The taxpayers who pay the bills are entitled to all of the facts. I am unalterably opposed to misleading financial statements by city departments.

Two Hurt When
Car Hits Auto
at Culver City

Mr. and Mrs. E. J. Polk, 30 Marshall Drive, Culver Gardens, are in the Casa del Mar Hospital, near Venice, as the result of the accident in which their automobile was struck by a Pacific Electric interurban car on Monday night.

Mrs. Polk has two ribs broken. Internal injuries and several cuts and abrasions. Mr. Polk is not seriously injured.

The accident happened at the second crossing west of the business center of Culver City and, according to Mr. Polk, the electric car did not stop after the collision. The automobile was turned completely over and the injured occupants were picked up by a passing motorist and brought to the hospital.

SKY BLUE MOND

Good Morning, Mr. Young—

That's the "hailing sign"—We've forgotten the "sign of distress." Don't have to use it. Speaking about "signs" reminds of lodges, "joiners" and a fellow dropped in here the other day soliciting for a new lodge.

After he had named every imaginable benefit this new lodge gave its members, he concluded, "and if our doctor can't cure you and you die, we'll give you a swell funeral and the band play."

Why hesitate—"and the band play brass band with every delivery of pined matter—but, say, the stuff itself is the song of satisfaction."

Why? Because "satisfaction" is a hobby.

Why shouldn't we "deliver the goods"? We've got the best kind of equipment—a staff up to the scratch and a big, big list of satisfied customers to spur us on.

Our plant is yours to serve—any way you flag, wig-wag or phone.

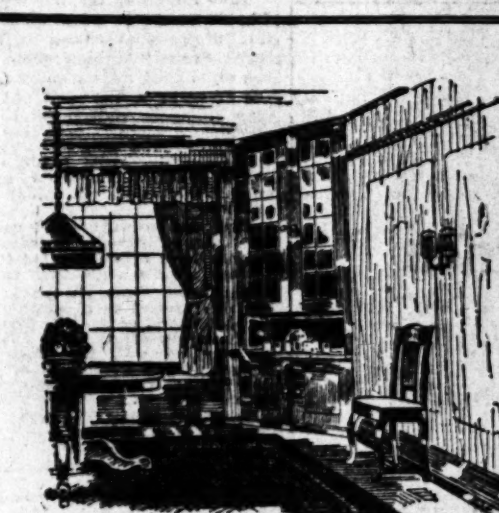

Yours for the best,

Dum (Bill)

P. S. Password—"Show me."

Some of the Reasons Why
WISS Shears Cut Best
and Wear Longest

Remember, a coat of shiny nickel plating may hide poor quality and many defects.

It makes all scissors and shears look alike. What is under the nickel plate is what you want to know.

Perfect Adjustment
done by experts, leaves better and longer service without repairs.

Crucible Steel Cutting Edges
A piece of glass-hard, razor steel is forged on cutting side of each blade. Stay sharp in spite of hard use.

Accurate Grinding
sharpens the blades and gives them sufficient twist so they draw together at the edges and cut easily at extreme points.

Temper
accurate and uniform. Poor temper in ordinary shears means blunt edges that "chew" rather than cut.

Look for Trade Mark
Every article branded WISS is guaranteed to give absolute satisfaction. Be sure you get a WISS.

Off-Set Handles
used by professional cutters for all day work. Blades lie flat against palm. Follow pattern easily.

Perfect Screws
accurate to 1-1000 of an inch—of special, long-wearing material—prevent blades from working loose.

Handles Unbreakable
at drop-length and, are like the crank-shaft of an automobile. They never break!

Get a WISS
8" Best Trimmer—an ideal cloth cutter for Dressmaking. \$1.40 or \$1.65 according to finish.

250 Styles and Sizes
Every pair guaranteed

Above are some of the features which have made Wiss Scissors and Shears supreme. Only in Wiss you can be sure of getting satisfaction.

Engineer Named
for Hydraulic
Work on River

(SPECIAL DISPATCH)

PHOENIX, (APR.) May 29.—

Donald A. Dudley has been detailed by the U. S. Geological Survey to direct hydraulic engineering work on the Colorado River. Transferred here from Tennessee, he will have headquarters at Topock, Ariz., below Needles, with oversight also of the stations at Yuma and Lee's Ferry, while an additional station is to be established at the foot of Bright Angel trail, in the Grand Canyon, where the equipment of a former station was washed away by the flood two years ago.

There is to be continuous and exact measurement at each point of the volume of water passing and ample notice hereafter will be given in points of the lower river of the coming of freshets.

From Many Points in Southern Counties. DEPUTIES HUNT KLAN MESSAGES IS FIRST VICTIM OF RIP TIDE PASADENA TO HONOR HEROES

Inventory Indicates a Population of 100,000

Officers Dismissed from City's Force

Funeral of Prominent Pioneer Citizen

Two meetings in the city and others far out on the desert. One such meeting was at Camelback Mountain, after which the local Klan was named, and was shown by flashlight photographs reproduced in the Phoenix papers. Another reproduced flashlight was of the scene when hooded Klansmen gave \$100 to traveling revivalists who had denounced purported vice conditions.

Attorney Montgomery and County Attorney Shepperd issued strong letters denouncing Klan methods and denying that they have been connected with the Klan in any way.

Two organizers, said to have been named Struss and Moore, who worked in Phoenix, are understood to have been paid at the rate of \$4 for each name turned in. The original lists are understood to have been in Phoenix, and the time before the California exposure.

The reason why Attorney M. J. Shelley failed to call more asserted by the Klan members is that the Klan was because it is stated he is saving them for other trials in the Jones case, these set by Judge Stanley at 10 o'clock Wednesday. The Walter jury still is out, with slight prospect for agreement.

SEEKS EVIDENCE
Armed with forthwith subpoenas from the grand jury, investigators of Dist. Atty. Woolwine's office are searching through the local offices of the Western Union and Postal Telegraph companies for telegrams exchanged between the Klan and its officials. It was learned yesterday.

This search for clues looking for possible indictments by the grand jury is being conducted by the direction of Chief Dep. Dist. Atty. Doran and Dep. Turley. They started the scrutiny of all Ku Klux Klan telegrams at the grand jury inquiry into the inner workings of the "Invisible Empire" entered into the final phase.

The investigation will be presented to the inquisitorial body, together with a mass of documentary evidence seized in the raid on the Klan headquarters in the Haas Building after the fatal masked raid in Ingleside last month.

SEVERE MEMBERS
G. W. Price, whose commission as King Kleagle of the hooded order was publicly declared at the Atlanta headquarters of the Klan, said no effort is being made to acquire a new location for the organization's office, the lease in the Haas Building will not be renewed, it was announced Saturday.

The whereabouts of Capt. William S. Colburn, grand organizer of the Pacific Domain, and recently appointed King Kleagle to Atlanta, a few days ago, but had not reached Los Angeles, it was learned.

The sweeping order of the Klan headquarters, abolishing all positions held by the Klan, is still the subject of much comment by Mr. Price and his nineteen Kleagles. They continued to hold conferences on the situation, under standard ventilation, no ice, and the fruit is arriving in good condition.

The season has been a very successful one, despite the abnormal weather conditions, and the various groves indicate a good settling of fruit for next season through the Rialto district.

The Rialto Packing Company has just completed paying out for its March pool of navel oranges and grapefruit, which are being shipped at the rate of two cars a day and the packing season at this house will close by June 15.

The Brocades method of thorough trial, having been used on more than 100 cars, and has proven satisfactory. At this late period of the packing season the association is shipping to points as far distant as Maine and Canada, under standard ventilation, no ice, and the fruit is arriving in good condition.

METHODS DENOUNCED
Heated denunciation of the Klan and its asserted methods were made in telegrams received yesterday by the Rialto district, Mr. Atty. Shepperd, Secretary of State Hall, State Warden Prochaska and Mr. Milnes, Immigration Commissioner, all of whom are members of the Klan.

Names of these men had been mentioned in purported membership lists and the Klan paper in New York City. Commissioner Milnes wired as follows:

"Absolutely no truth in statement that I am a member of the Ku Klux Klan. Do not believe in any order which attempts to usurp the functions of organized government and arrogate to itself the right and power to pass judgment upon individuals. Legal methods are the only proper basis for punishment of wrongdoers, and experience has demonstrated that any other method constitutes menace to American institutions and ideals."

REPUTES MEMBERSHIP
The denial of State Warden Prochaska follows:

"Whoever furnished you with my name as a member of the Ku Klux Klan is a coward and I have never been a member of the cowardly organization known as the Ku Klux Klan. It is to be regretted that your paper in New York City has taken for granted that your readers were taken for granted and that they were taken for granted."

Secretary of State Hall replies to the assertion made in Phoenix that he is a member as follows:

"I am not a member, and believe the report of my connection by political enemies and bootleggers I have prosecuted. A government is supposed to have furnished the information."

BAPTISTS BURN MORTGAGE
(LOCAL CORRESPONDENT.)
SOUTH PASADENA, May 28.—Baptists from all over Southern California gathered in this city today to aid members of Memorial Baptist church in their "Burning the Mortgage" ceremony. For the first time since the mortgage on the church is free of indebtedness and is free to plan for a \$30,000 improvement of the church building to be started in the near future.

Los Angeles Boy Loses Life Beyond the Breakers in Surf at Long Beach

(EXCLUSIVE DISPATCH.)
LONG BEACH, May 28.—In the first drowning of the season here the rip tide claimed John Castles, 19 year old, of 309 Emswade street, Los Angeles, shortly after 5 o'clock this afternoon.

Castles and Ana Roraback, 16, of 409 West Fifty-fifth street, Los Angeles, had both been carried out beyond the last breaker line when their cries for help were heard by pleasure seekers lining the beach front.

Miss Roraback, with remarkable cool headedness, gave up the struggle before exhausting her entire strength and turned on her back and floated until life and limb were lost. She was found by the police at the foot of Golden Avenue.

Both guards plunged into the high surf and running rip tide and in a short time reached the girls' side. The boy, however, apparently gave out entirely in an effort to fight his way back to safety and had disappeared before the guards arrived.

Life guard Witt was the first to reach the girl who was in a semi-conscious condition and he, with the aid of the lifeguard, carried her to the shore. She was taken to the hospital and is recovering.

GOOD CITRUS SEASON
Rialto Growers Get Good Prices On Fair-Size Crop

(LOCAL CORRESPONDENT.)
RIALTO, May 28.—The Rialto Orange-Lemon Association, pioneer of the district, and a member of the Fruit Exchange, has closed its season pools for navel oranges and lemons. The total checks amounting to \$175,723.03.

There are about eighty cars of Valencia, which are being shipped at the rate of two cars a day and the packing season at this house will close by June 15.

The Brocades method of thorough trial, having been used on more than 100 cars, and has proven satisfactory. At this late period of the packing season the association is shipping to points as far distant as Maine and Canada, under standard ventilation, no ice, and the fruit is arriving in good condition.

PASADENA TO HONOR HEROES

Committee Announces Program for Memorial Day

Golf Champion Makes Home in Crown City

First Hot Day Sends Hundreds to Beaches

PASADENA, May 28.—Dr. Daniel F. Fox, pastor of the First Congregational Church, is announced by the Memorial observance committee to deliver the principal address at the Memorial Day exercises in Library Park Tuesday morning.

Exercises at the park will be preceded by a parade of patriotic organizations, including John F. Godfrey Post of the G.A.R., Pasadena Post of the American Legion, Spanish War Veterans, a U. S. Army unit from the Army Balloon School at Fort Huachuca, and a R.O.T.C. and band, Elmer band and drum corps, Sons of Veterans and women's auxiliaries of the patriotic societies. Monahan John M. McCarthy, pastor of St. Andrew's Catholic Church, will pronounce the invocation.

Decorations of the graves of soldiers and sailors in Mountain View cemetery will follow at the park exercises. John M. McCarthy, drummer boy of '61, is chairman of the general Memorial Day committee.

GOLFER SELECTS PASADENA
Color is lent Pasadena's claim to be the "golf capital" of the country by the decision of Fred Wright, the famous Boston amateur, who was the star of the American golf invasion of Great Britain last year, to make Pasadena his permanent home.

Mr. Wright will make his permanent home here and has joined the Pasadena Country Club. He will be accompanied by Mrs. Wright, who will be a member of the club in future golf tournaments.

EXODUS TO BEACH
Today was the warmest day of the season, and the exodus to the beach was a big one. In consequence there was a big exodus to the beach, places from Pasadena.

All auto highways out of the city were teeming with traffic. The Pasadena Country Club, the educational institution of the Pasadena Country Club, in this city, preached the bacchanalian sermon there this afternoon, inaugurating commencement week at the school.

The final exercises of the horsepower double armature motor, with a normal speed of 275 revolutions per minute, and an output of 155 brake horsepower.

The wheel is five feet in diameter. Large steel fuel tanks, rectangular in shape, provide for a cruising radius of 6000 miles at a figured speed of eleven knots, or approximately 20 miles per hour.

Fuel costs are estimated at 60 cents per hour, which means a saving in the running expenses of more than 600 per cent over the old method of steam or gas.

PLANS EXTENDED CRUISE
Commodious quarters for the crew are provided in the fore of the yacht, with six berths, table and chairs, and a small kitchen and mahogany.

After this is the gallery, completely equipped with electrical and modern appliances. Aft the gallery is the main saloon, reached from the upper deck by a grand circular staircase.

The owner's stateroom occupies the full width of the boat immediately aft the engine room, and provides for the berth and bath accommodations.

Another stateroom is built in the after end of the yacht, while beneath the pilot-house is a small stateroom for the crew, and the wireless room is placed in the after part of the boat.

With the completion of the Veleo II in August, Capt. Hancock plans a number of short-length trips in the Pacific Ocean, and these being preliminary to a tour of four or five months which he plans to make along the west coast of Mexico, through the Panama Canal and on to the north coast of South America, where Capt. Hancock will visit many of the unfrequented islands and bays.

This extended cruise will carry the Veleo along the west coast of Mexico, through the Panama Canal and on to the north coast of South America, where Capt. Hancock will visit many of the unfrequented islands and bays.

NEW YACHT TO BE LAUNCHED

Veleo II Will Slip from Ways Saturday

G. Allan Hancock, Owner, Plans Long Cruise

Event Will Mark Important Fleet Addition

An event of much interest in yachting circles this week will be the launching of G. Allan Hancock's new yacht, Veleo II, which will be slipped off the ways at Wilmington at 6 p.m. Saturday.

The launching of the new craft will be attended by an informal ceremony, witnessed by friends of Mr. and Mrs. Hancock, and many other interested parties.

The new vessel, which will be the second of the name, Veleo, meaning "swift sailer."

Yachtsmen of Southern California and the entire West are interested in the new vessel, which is one of the most modern vessels of its type in the world, and is the first Diesel electric-driven yacht to be constructed here.

With the building of the new yacht, the Veleo Club has been heightened of interest in yachting as a sport. The Veleo II is looked upon as a decided acquisition to Pacific Coast yacht fleets.

NEW POWER FEATURES
The boat is 125 feet long over all, with a twenty-foot beam and draws seven feet of water. The Veleo II is 100-foot yacht; Veleo I, however, has been retained in so far as possible, but the new and larger vessel combines with her grace of construction, an added strength and seaworthiness.

The two six-cylinder engines of new type that a paramount interest lies, for these provide a power of 1500 horsepower, and are in operation, and at the same time allow for the direct control of the propeller.

The two generators are of ninety K.W. each. Between the engines and directly connected with the propeller is the 315-horsepower double armature motor, with a normal speed of 275 revolutions per minute.

Large steel fuel tanks, rectangular in shape, provide for a cruising radius of 6000 miles at a figured speed of eleven knots, or approximately 20 miles per hour.

Fuel costs are estimated at 60 cents per hour, which means a saving in the running expenses of more than 600 per cent over the old method of steam or gas.

A CHUCKLE FOR EVERYBODY

"REG'LAR FELLERS"

By GENE BYRNES

IT WAS RATHER MEAN ON ELVA'S PART!

SUGGESTED AND DRAWN BY BRUCE RUFFELL, 216 FOURTH AVE., LOS ANGELES, CAL.

Can You Think of an Idea as Funny or Funnier Than This? If So, Send It In and Win a Cash Prize. Starting every Friday and ending every Thursday, The Times conducts a "Wad" comic-strip contest. The best idea gets \$10, and next \$5, and all others... must be original, local, "drawable" and funny. Each picture must be described in words of a rough sketch. Title and dialogue must be supplied. All... Elva Wad, pretty and frivolous daughter; Guns Wad, the nickel server; Mrs. Spenda Wad, club and society woman; West A. Wad, Wad, care The Times. Anyone may compete and submit as many ideas as desired. No manuscripts or drawings will be returned.

GASOLINE ALLEY—THAT NEW NEIGHBOR OF AVERY'S

THE GUMPS—THE TWO SIDES OF THE CASE

ATTORNEY HOVEY MADE A MOTION FOR A NEW TRIAL. IN HIS ARGUMENT BEFORE THE JUDGE HE CLAIMED THAT THERE WAS NOTHING IN THE EVIDENCE TO WARRANT THE VERDICT.

I THINK IT'S TERRIBLE—A POOR WIDOW HAS NO CHANCE—A WIDOWED THOUGHTFUL AT ALL AND I NEED IT SO BADLY—NOW I SUPPOSE I'LL HAVE TO GO THROUGH ALL THIS AGAIN AND I AM NOT GETTING A THING—I WISH TO SETTLE IT OUT OF COURT.

WELL, WHY DON'T YOU? I ADVISED HIM YOU AND YOUR UNCLE STEPHEN TO SETTLE OUT OF COURT IF POSSIBLE—BUT YOU WEREN'T Satisfied WITH A LITTLE MONEY—THOUGHT YOU'D GET ALL HE HAD.

AND THIS IS THE OTHER SIDE OF THE CASE—JOY REIGNS SUPREME

RIGHT IS MIGHT—SEE—WHAT DID I TELL YOU? NOW YOU CAN WRITE YOUR OWN TICKET—NO BOTHER TAKE A CHANCE WITH ONE MAN WITH BRAINS AND JUDGMENT WHO KNOWS LAW THAN WITH A FELLOW WHO KNOWS NOTHING ABOUT LAW AND THINKS A RICH MAN SHOULD TO GIVE UP BECAUSE HE HAS MONEY—CONGRATULATE YOUR UNCLE.

YOU'RE NOT A BIT LIKE MY FIRST—YOU'RE AN OLD Grouch—NO MOTHER HE HAD TO WORK ALL DAY HE USED HOME EVERY EVENING FULL OF FUN

MINUTE MOVIES

WHEELAN SCENIC

WHAT ARE THE WILD WAVES SAYING?

PROBABLY NO MANIFESTATION OF DAME NATURE IS QUITE SO TALKATIVE AS WAVES AND ESPECIALLY WILD ONES. BUT IN WHATEVER MOOD WE FIND THEM, STILL THEY HAVE A MESSAGE FOR US IF WE CAN BUT INTERPRET IT. COME, LET US SEE...

THERE ARE THE LITTLE WAVELETS OF EARLY MORNING, LAPPING THE SHORE IN GENTLE MONOTONY, TELLING US THAT A NEW DAY IS AT HAND, AND FILLING OUR HEARTS WITH A GREAT PEACE, UNTIL WE HAPPEN TO THINK OF OUR INCOME TAX PAYMENT.

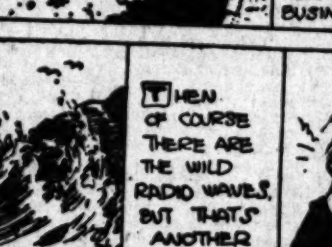

THEN THERE ARE THE SUMMER WAVES, HARDENERS OF RECREATION AND SPORT, BECKONING US TO DRINK PLEASURE AND URGING US TO FORGET FOR TWO WEEKS, AT LEAST, THAT THE HARD-DASHERY BUSINESS EVER EXISTED.

THE ROUGH SEA HAS A TROUGH LINE OF TALK FOR MANY OF US AND MAKES US FEEL THAT THE MAN WHO SAID "WHATEVER GOES UP MUST COME DOWN" SHOULD HAVE PUT IT JUST THE OTHER WAY.

THE ANGRY WAVES LASHING AND DASHING, GNASHING AND CRASHING, HITTING THE COAST SOME REMARKABLE DAPS SEEMS THAT THEY FEEL THAT A PERSON ARMED VOLSTEAD MAY TRY TO ADOPT THEIR LITTLE NIGHT-OPS.

THEN OF COURSE THERE ARE THE WILD RADIO WAVES, BUT THAT'S ANOTHER STORY.

THE KERNEL—HOW WAS GUS TO KNOW?

THE DETECTIVES ARE HOT ON THE TRAIL OF THE CONVICTS, THOUGH UNABLE TO SEEK THE GOLD THEMSELVES. GIP AND DIK, MAMAGE TO KEEP WITHIN RIPLE SHOT OF THE HIDDEN TREASURE.

Emblem of
BUSINESS CHARACTER
**Rice Leaders
of the World
Association**
Represents High Standing in
NAME-PRODUCT-POLICY

Emblem of BUSINESS CHARACTER

"THE character of a good man inspires faith in him. . . . The standard set by such a man is an inspiration to all who know him. As knowledge of him increases, his circle of influence widens and benefits to others multiply.

"The same principle is applicable to business. A manufacturer whose character and reputation measure to the highest standards has an inspiring influence upon all who know him. It is therefore clearly to be seen that when more people know of such a manufacturer the business world in general is benefited.

"It is true that through wider knowledge of the character and reputation of a worthy manufacturer he is benefited individually. Careful buyers naturally place their orders with a manufacturer known to be deserving of their confidence.

"But more than that: distributors who sell the goods of such a manufacturer strengthen their own reputation for handling dependable goods. The beneficial effect is extended to the consumer; he has the consciousness of using a product designed for his profit, health, happiness and comfort."

(From the book "Standards of Business" by Elwood E. Rice)

The Emblem of the Rice Leaders of the World Association portrays the principles that go to build Business Character. Before manufacturers are accepted into membership they must be known to practice these principles, which constitute the Association's

Qualifications for Membership:

- HONOR:** A recognized reputation for fair and honorable business dealings.
- QUALITY:** An honest product, of quality truthfully represented.
- STRENGTH:** A responsible and substantial financial standing.
- SERVICE:** A recognized reputation for conducting business in prompt and efficient manner.

You will identify members by their use of the Association Emblem of Business Character. It appears in their advertisements and literature.

It is not inferred that only members adhere to high business standards, but you may be certain the Emblem identifies manufacturers worthy your fullest respect and confidence.
